

I'd like to invite you and your colleagues to attend between **17th – 19th October 2019**, the 10th edition of the International Colloquium of Social Sciences and Communication ACUM, entitled Challenges of Education and Research in the Social Sciences organized by Transilvania University of Braşov, Faculty of Sociology and Communication

The present-day complexity, volatility and diversity of the globalised world present changes and ever-new challenges to higher education and research. In this context, a deep understanding of contemporary life requires an interdisciplinary approach, which is recognised as an opportunity to strengthen cooperation between research, education and business communities. Therefore, the aim of the conference is to bring together a wide audience of researchers, teachers, professionals and students around clearly circumscribed topics, engage participants in fruitful debates and facilitate mutual understanding.

At this web-link will find all the necessary details, inclusive about our panels.
